

June - July Workshops June 21 - July 16, 2011

Pera Education 2011 Summer Workshops

Caricature Workshop

The Caricature Workshop involved exploring the world of caricature by delving into the history of comics followed by a hands-on experience by learning the basics of the technique and the drawing; along with the technical aspect creating the comedy and humor effects are also explored.

Basics of the Art of Sculpture

Participants got a chance to explore the basics of sculpture beginning with the history of sculpture and the important artists. Each week a different type of material was used for creating the sculptures. Based on 3 sessions in this workshop children learned modeling and molding by forming their own sculptures.
