Manga Drawing Workshop  
August 6 - October 3, 2010

Pera Education programming in collaboration with the Comic Book Readers Platform, parallel to the Japan Media Arts Festival in Istanbul – 2010 exhibition, is organizing “Manga Drawing Workshops” for teenagers and young adults.

The workshops leaded by Necmi Yalçın and Tayfun Sezer focus on a condensed history of manga and its drawing techniques; especially the various comic book styles will be underlined.

Young participants will be exploring drawing manga at a very primitive stage – they will leave with one full page of their own drawn story.
