

Sparkling Sculptures 29 December 2012

For the New Year, Pera Education is offering two workshops called "SparklingSculptures" and "Christmas Cards" for two different age groups.

On the last Saturday of 2012, children will have the opportunity to design different sculptures with colourful and shiny Christmas ornaments, creating figures, creatures, and little animals as they wish.

In addition, they will get a chance to design New Year cards for their families and friends, drawing pictures, decorating, and writing their wishes for the new year.
