

Olé! Pop Art **18 May-9 June 2013**

Between 18 May - 9 June 2013, Pera Education organized a variety of weekend workshops for ages 15-20, as part of the exhibition on leading Spanish contemporary artist Manolo Valdés.

As part of the program "Ole! Pop Art" designed for ages 15-20, participants worked on paintings using serigraphy and collage techniques.

The use of strong texture, of different media in the works of Manolo Valdés constituted the basis of this workshop.

Apart from making collages on paper with different materials, participants also used Valdés-inspired and pre-designed silkscreens in their paintings. This allowed them to employ different techniques with a variety of materials.
